

# Fisheye Type II Network Camera

## Quick Installation Guide

### Installation:

#### Note:

Make sure that the wall is strong enough to withstand three times the weight of the camera.

#### Steps:

1. Drill three screw holes and the cable hole according to the supplied drill template.

2. Fix the three supplied screws half-deep to the ceiling, leaving enough space to hook the camera body.

3. Connect the corresponding power cable, network cable, audio and alarm cables.

4. Align the screw holes to the inserted screws, hook the camera body to the screws, and route the camera body to secure the camera with the screws.

5. Hammer the half-deep screws into the ceiling totally.

6. Install the camera cover to the camera body, and fix them by tightening the lock screw on the camera cover.

| No. | Description        | No. | Description        |
|-----|--------------------|-----|--------------------|
| 1   | Camera Body        | 6   | Ethernet Interface |
| 2   | Reset              | 7   | Power Interface    |
| 3   | Micro SD Card Slot | 8   | RS-485 Interface   |
| 4   | Camera Cover       | 9   | Audio In           |
| 5   | Alarm Interfaces   | 10  | Audio Out          |
|     |                    | 11  | Video Out          |

### Disassembling the Camera:

1. Loosen the lock screw on the camera cover.

2. Remove the camera cover.

For detailed instructions of further configuration, please refer to the user manual of network camera.
