What Makes Us Stand Out

Since 2009

Founded in 2009, LTS provides industry-leading security solutions and value-added services in video surveillance. We offer a comprehensive range of products, including cameras, intercoms, access control systems, accessories, mobile apps, and software. With offices located nationwide across the United States, we provide same-day pickup, fast shipping, and timely delivery.

First-class Service

- Well-stocked Inventory
- Same Day Delivery
- New Technology Demos
- Shop Online 24/7
- Local Order Pick up
- Membership Rewards
- Free Shipping Available
- Seamless RMA Process

100+ New Products Released Annually

We offer a wide range of high-quality products for diverse applications.

90K Customers Served Annually

120+ Sales/ Techs

- Free Security Solution Consultation
- Sales & tech support from 9am to 9pm ET

Semantic Search Capabilities

Our access control system integrates with our DeepVision NVRs for Semantic Search, enabling faster and smarter investigation

Always-On Health Monitoring
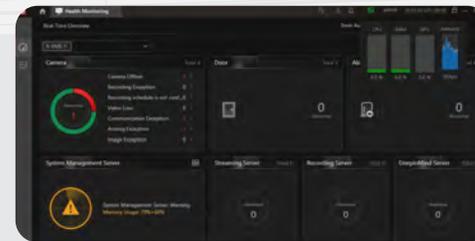

Stay in control with real-time and historical system health insights. Our intuitive dashboards make it easy to track device performance, pinpoint issues from the last 30 days, and ensure nothing goes unnoticed.

Mobile & Web Access Anywhere

Configure, monitor, and respond on the go. Whether on smartphone, tablet, or browser, you stay in control.

Dynamic Viewing Modes

Designed for operational precision, our access control software supports versatile viewing modes such as live, panoramic, and grid layouts, enabling efficient surveillance management across diverse environments.

LTS Platinum Partner (LPP) - For Installers

Management Solution that Boosts Marketing, Lowers Labor Costs, and Creates Recurring Revenue

LTS Platinum Partner

Download App

LPP Basic FREE Feature: Remote Management

LTS Platinum Partner For Installers

LPP allows installers to create sites and share permissions to other installers and end-users

Installers create site

LTS Platinum Partner offers integrated marketing, revenue generation, and recurring income to streamline your business success. Read more below about how these premium paid add-ons can help you grow your business.

LPP Premium Features: Paid Add-ons
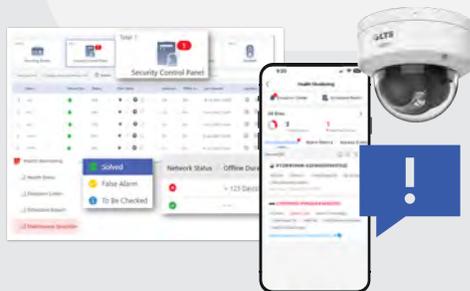

Health Monitoring

Installers can monitor device status and provide remote health management, including:

- Regular inspections for devices, HDDs, and network failures
- Prompt notifications and logs
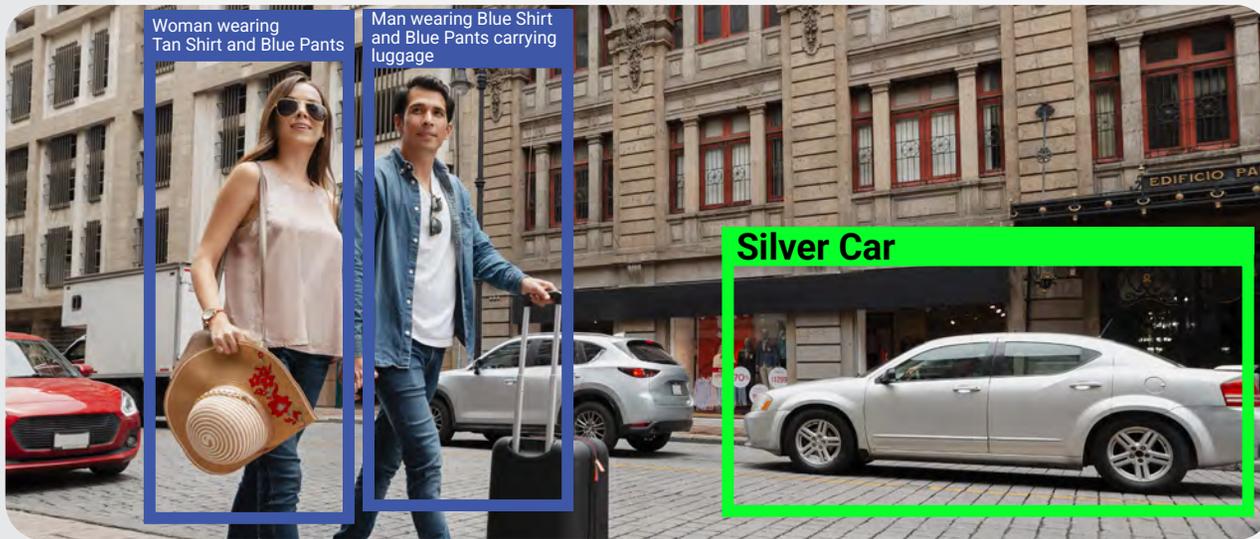

Co-Branding

- Expand your company's reach with enhanced brand recognition.
- LTS promotes your business by showcasing your logo on the app, NVR interface, and reports, effectively engaging both existing and potential customers.

Employee Account Add-On

- Installers can add users to both new and existing CCTV systems, making it easy for employees to collaborate.
- Employees can be assigned different permission levels based on their roles and responsibilities.

Find Moments in Seconds with Semantic Search

Woman wearing Tan Shirt and Blue Pants

Man wearing Blue Shirt and Blue Pants carrying luggage

Silver Car

DeepVision NVRs deliver intelligent performance, seamless integration, and unmatched search efficiency. Designed for professionals who demand speed, accuracy, and reliability in every frame.

First Semantic Search NVR

Person Wearing Black Hoodie

As the first NVRs to integrate Semantic Search technology, DeepVision sets a new benchmark in intelligent video analytics and operational efficiency.

Intuitive Experience

Eliminate the need to manually review hours of footage. With Semantic Search, you can find subjects in seconds — simply enter a few descriptive keywords and let the system do the work.

Large Multimodal Model

Powered by a large multimodal model, images and text are mapped into a shared vector space for seamless interaction. This enables advanced capabilities such as descriptive text-based searches to find the exact moment you're looking for.

Accurate Results
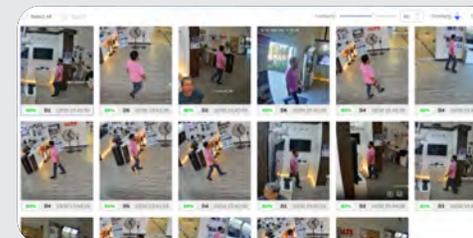

Semantic Search intelligently interprets your keywords to deliver the most relevant results. Adjust the similarity score to refine your search — higher scores return closely matched footage, while lower scores broaden the range of related results.

Instant Suspect Tracking at the Click of a Button

Direct-Search

With the new direct-search software, track targets accurately and quickly. The NVR reads the metadata pulled from the cameras and locates similar subjects within the search results, making it easy to find your subject of interest.

Track Your Suspects Easily

Say goodbye to manually digging through footage to find your perpetrator. Use Direct-Search to select a target in a given frame and expand the search through all the footage for similar subjects in minutes.

Vehicle Tracking

This software works with your camera system to help track vehicles entering your property.

Your Gatekeeper Against Unauthorized Access

Facial Recognition

The NVRs pull data from the AI Color 24/7 Cameras to alert you when unauthorized visitors are onsite. This technology is perfect for ensuring the safety of your home, property, and business.

Note: These two features cannot work simultaneously.

Screen Your Visitors

The facial recognition feature alerts you based on the database of allowed and blocked lists of individuals. For example, the system will notify you when VIPS on the permitted list enter the premises.

Enhanced Monitoring Across Every Channel

The NVR leverages facial recognition technology across multiple channels to instantly alert you to security threats, such as individuals on a blocked list. This streamlined approach reduces costs by eliminating the need for real-time monitoring of each channel individually.

Note: Requires compatible camera models

NVMS Features (For Single Site)

- Live View, Recording, and Playback
- Alarm Management
- Access Control and Intercom

Experience Pro Control for Free

Enjoy intelligent video search, smooth navigation, and seamless access management. All without the price tag.

Designed for Ease

NVMS is an intuitive software that puts full control at your fingertips with a clean design and simple navigation.

Built for Single-Site Control

Designed for single-site security, our software keeps everything simple, fast, and reliable.

10X Better Color 24/7 Performance to Seal the Deal

Color 24/7 ➡ **AI Color 24/7**

LT Security proudly presents AI Color 24/7 cameras, which feature enhanced algorithms and features for outstanding visual performance. Prepare to improve your experience with high-quality images in low light, anti-corrosion housing, AI WDR, higher accuracy rate, enhanced audio, direct-search, and more.

Advanced AI-ISP Enhances Color Image Quality in Low-Light Conditions
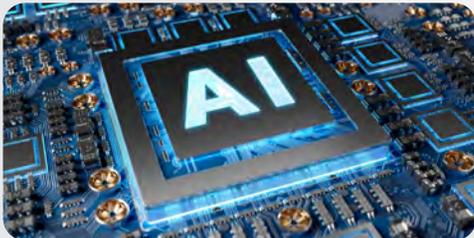

The built-in AI chip brightens images, reduces noise, enhances color accuracy, and provides more detailed clarity. Additionally, this new technology supports color correction and matching. AI WDR improves clarity and detail in environments with high-contrast lighting.

Active Deterrence

The AI Color 24/7 cameras ending in -LAISP feature red and blue strobe lights, along with two-way audio, making them effective for deterring intruders.

Anti-corrosion NEMA 4X Housing for Harsh Conditions

The anti-corrosion NEMA 4X housing can withstand harsh environmental conditions, ensuring reliable yearly performance.

VCA 3.0 for Enhanced Accuracy

Minimize false alarms with our advanced human and vehicle detection algorithm. Combined with line crossing detection, our cameras help identify and alert you to unauthorized movements across defined boundaries.

Maximize Your Time with Faster, Easier Installation
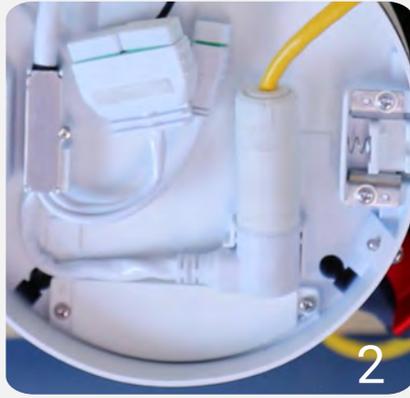

The era of lengthy installation with traditional cameras is over. InstaDome reduces installation time by 5X thanks to its removable plate, cable management, and remotely adjustable lens. It also provides key features such as active deterrence and human and vehicle detection.

Remotely Adjust Lens
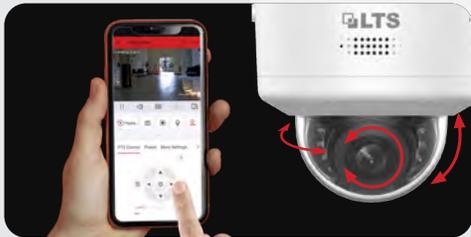

Rather than removing the camera to adjust wires and cameras by hand, you can remotely adjust the lens for pan, tilt, zoom, and z-axis via the app.

Active Deterrence

The InstaDome triggers a white strobe light to warn intruders once they enter the detection zone. You can also use the two-way audio feature to discourage unwanted visitors from trespassing.

Organized Cable Management

The InstaDome has a removable plate that comes off, revealing neatly arranged cables within the junction box, significantly reducing installation times by 80%.

VCA 2.0 Human & Vehicle Detection for Reduced False Alarms

With VCA 2.0, false alarms are significantly reduced by accurately distinguishing humans and vehicles from non-relevant objects, alerting you to genuine security threats.

Ultimate 5-in-one Instadome Camera

360°

270°

Customizable

This camera features five multi-directional lens to protect you from all angles. Its greatest strength is the InstaDome technology for remotely adjustable lenses, which allows you to ideally adjust the four lenses to suit your installation site.

Versatile, Customizable Lens for Any Application
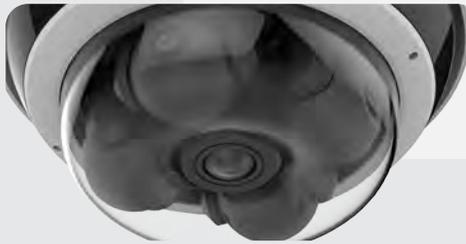

This camera has four lenses that are easily adjustable to cover angles such as 360° and 270° to secure your property from all angles. You can customize the lens configuration for different application settings, such as parking lots and corner buildings.

Save Labor Costs with One PoE Cable for Multi-lens Cameras

We are significantly reducing labor costs by utilizing a single PoE (Power over Ethernet) cable to support a camera with five lenses. This approach eliminates the need for five separate cables and cameras, streamlining installation and maintenance while improving efficiency.

InstaDome Technology
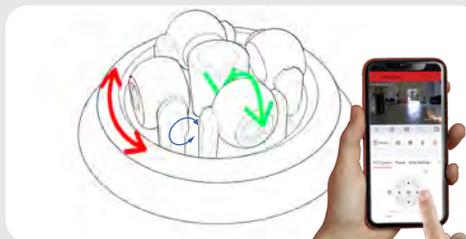

The camera has a removable plate and organized wire junction box, making installation up to 5X faster. Installers can remotely adjust the pan, tilt, rotation, and zoom lens via the app to fit your installation site's pain points.

Blind Spot Protection

Unlike other cameras, this camera features a fixed lens at the bottom of the dome for a 360° FOV, enabling direct monitoring underneath.

# Best of Both Worlds: Exceptional Detail and Wide Coverage

25x Zoom

The panoramic PTZ camera, which features two separate cameras in one unit, is an excellent choice for monitoring vast areas. The 180° panoramic camera on top captures high-quality images of vast spaces. The PTZ camera below uses a 25x zoom lens to deliver detailed, clear

180° Wide Angle Coverage

The 180° panoramic camera covers vast, broad areas, making it perfect for applications such as roads, railways, airports, public venues, and more.

Save Labor Costs with One Installation

2 Cameras in One

8MP 180° Panoramic

4MP 25x Optical Zoom PTZ

The panoramic and PTZ lenses offer coverage of multiple angles, making it a tremendous cost-efficient solution. A single PoE (Power over Ethernet) cable can support a camera with three lenses to save labor costs.

25x Zoom Lens for Long-Range

The PTZ camera below has a 25x zoom lens, which provides detailed, close-up images for tracking humans or vehicles.

Human & Vehicles Auto-tracking
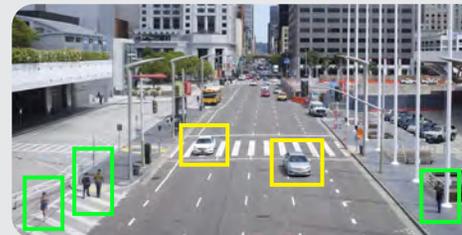

This panoramic PTZ can zoom in and auto-track humans and vehicles, ensuring your property is safe in sensitive, restricted areas.

Invest in Care, Skip the Repair

With powerful strobe lights, and two-way audio, TVI cameras are proactive against break-ins, significantly minimizing the need for costly property repairs. TVI cameras require compatible DVR models for MD 2.0 Human/Vehicle Detection.

Active Deterrence

This camera flashes red and blue strobe lights to deter intruders once they enter the detection zone proactively.

Two-Way Audio

If you encounter loiterers or personnel, you can use the two-way speakers to communicate and discourage access.

180° Coverage

In addition to the strobe lights, these cameras have 180° coverage to monitor every angle—because total awareness means total protection.

VCA with Human & Vehicle Detection

When paired with compatible DVRs, our cameras deliver enhanced detection accuracy—effectively distinguishing between relevant and irrelevant motion to minimize false alarms.

DEFENDAS CONNECT

Available on Apple & Android

UL 294 Certified

☑ UL 294
☑ Safety
☑ Reliability

Our access control solutions are UL 294 certified, ensuring compliance with rigorous safety, performance, and reliability standards.

User-Level Access Management

Set the right access for the right people. Customize permissions by role to keep your system secure, organized, and easy to manage.

Mobile & Web Application
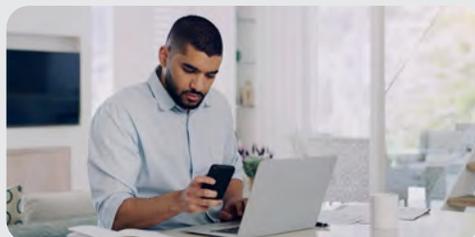

Our platform delivers seamless system control across web and mobile environments, enabling real-time monitoring, configuration, and event management from virtually anywhere.

Built-in PoE and Wi-Fi Capabilities

Integrated PoE and Wi-Fi capabilities enable flexible installations with fewer components, minimizing infrastructure requirements and reducing overall deployment costs.

Defendas Sentinel Series

SKU	ST200B ST400B	ST10-MEK	ST902-MEK	ST-ENROLL
Key Features	• 2- and 4-door options • Scalable system design: connect up to 21 controllers (1 primary + 20 secondary) to manage up to 84 doors • Integrated web-based management platform • Communication supported via Wiegand and RS-485 • Flexible verification options: card, password, and QR code • PoE delivers both power and data through one cable • Built-in Wi-Fi connectivity • Tamper-proof alarm functionality • Sleek black metal enclosure • UL294 Certified	• Rugged IP66 and IK07 protection • Multiple access options: card, PIN, or QR code • Wiegand and RS485 (OSDP) for seamless system integration • Compatible with125kHz (EM) and 13.56MHz (Mifare) cards • Bluetooth-enabled for convenient setup and configuration via app • NFC tap-to-unlock support • Fast QR-code scanning for quick entry • Responsive touch keypad for PIN entry • Built-in tamper alarm for added security and protection • UL294 Certified	• Built with IP65-rated weather protection for reliable outdoor use • Flexible access options: card or PIN • Supports Wiegand and RS-485 (OSDP) for easy integration • Compatible with both 125 kHz (EM) and 13.56 MHz (MIFARE) cards • Enhanced security with a built-in tamper alarm	• Quick USB Plug-and-Play Enrollment Reader for EM (125 kHz) and MIFARE (13.56 MHz) Cards • Enhanced user-friendly operation with visual (LED) and audio (beep) feedback

airMAX® Wireless

LTU 5GHz

UBNT-LTU-LR
5 GHz PtMP LTU Long-Range Client, functions in a PtMP environment with the LTU-Rocket as the BaseStation.

UBNT-LTU-PRO
5 GHz PtMP LTU Client with advanced RF performance, functions in a PtMP environment with the LTU-Rocket as the BaseStation.

UBNT-LTU-ROCKET
5 GHz PtMP LTU BaseStation Radio, functions in a PtMP environment using the LTU Pro, LTU Lite, or LTU LR as Clients.

airMAX 5GHz

UBNT-LOCO5AC
Compact, UISP-ready WiFi radio sporting a classic NanoStation design and an updated airMAX AC chipset.

UBNT-LBE-5AC-GEN2
Ultra-lightweight design with proprietary airMAX ac chipset and dedicated management WiFi for easy UISP mobile app support and fast setup.

UBNT-LOCOM5
Low-cost and efficient broadband 5GHz CPE.

UBNT-NBE-M5-16
High-performance 5GHz, 16 dBi bridge.

Antennas and Accessories

UBNT-AMO-5G10
5 GHz, 10 dBi carrier-class 2x2 dual-polarity MIMO omnidirectional antenna.

UBNT-AMO-5G13
5 GHz, 13 dBi carrier-class 2x2 dual-polarity MIMO omnidirectional antenna.

UBNT-ETH-SP-G2
ESD protection for outdoor high-speed networks.

UBNT-UB-AM
Universal mounting bracket for wall-mount flexibility.

UBNT-NSM5
Indoor/Outdoor airMAX 5GHz CPE.

UBNT-LAP-120
Ultra-lightweight, 5GHz access point with a versatile, ball-join mount

UBNT-NBE-5AC-GEN2
Compact, UISP-ready, 5GHz WiFi bridge with enhanced surge protection and an optimized radio and antenna.

UBNT-PBE-5AC-GEN2
High-performance 5GHz Point-to-Point (PtP) bridge with integrated dish reflector.

UBNT-IS-5AC
Compact, UISP-ready, 5GHz WiFi bridge with enhanced surge protection and an interchangeable horn antenna.

UBNT-R5AC-LITE
airMAX AC Technology for up to 500+ Mbps throughput.

UBNT-PBE-5AC-ISO-GEN2
5GHz WiFi bridge with a 450+ Mbps real TCP/IP throughput rate and enhanced surge protection.

UBNT-RD-5G30
5 GHz, 30 dBi or 34 dBi high-performance dish antenna.

UBNT-RP-5AC-GEN2
High-performance 5GHz basestation for PtMP or PtP links. Provides up to 500+ Mbps data throughput.

UBNT-NS-WM
Window mount for NanoStationM airMAX devices.

UBNT-ACB-ISP
Low-cost home WiFi access point made to interoperate with airMAX CPE devices, with remote management by UISP.

UBNT-ACB-AC
High-performance home WiFi access point made to interoperate with airMAX CPE devices, with remote management by UISP.

UniFi® Wifi

UBNT-U7-PRO
Ceiling-mounted WiFi 7 AP with 6 spatial streams and 6 GHz support for interference-free WiFi in demanding, large-scale environments.

UBNT-U7-PRO-MAX *NEW*
Ceiling-mounted WiFi 7 AP with 8 spatial streams, 6 GHz support, and a dedicated spectral scanning engine for interference-free WiFi in demanding, large-scale environments.

UBNT-U7-OUTDOOR *NEW*
All-weather WiFi 7 AP with 4 spatial streams, an integrated directional super antenna, and versatile mounting options.

UBNT-U7-PRO-WALL *NEW*
Wall-mounted WiFi 7 AP with 6 spatial streams and 6 GHz support tailored for home builders with seamless installation options.

UBNT-U7-LITE *NEW*
Wall-mounted WiFi 7 AP with 6 spatial streams and 6 GHz support tailored for home builders with seamless installation options.

UBNT-U7-IW *NEW*
Wall-mounted WiFi 7 AP with 4 spatial streams and an integrated 2.5 GbE PoE switch designed for hospitality environments. Note: PoE+ input required for single-port PoE output.

UBNT-U6+
Compact, ceiling-mounted WiFi 6 AP with 4 spatial streams that improves upon the U6 Lite with higher performance and dual-band WiFi 6 support. Ideal for small and medium-sized businesses.

UBNT-U6-PRO
Ceiling-mounted WiFi 6 AP with 6 spatial streams designed for large offices.

UBNT-U6-MESH
Sleek, indoor/outdoor WiFi 6 AP with 6 spatial streams designed for mesh applications.

UBNT-U6-MESH-PRO
Indoor/outdoor WiFi 6 AP with 4 spatial streams, an integrated super antenna, and a gigabit passthrough port.

UBNT-U6-IW
Wall-mounted WiFi 6 AP with 6 spatial streams and a built-in 4-port switch ideal for single-room coverage in hospitality environments.

UBNT-U6-ENTERPRISE-IW
Wall-mounted WiFi 6E AP with 10 spatial streams, 6 GHz support, and a built-in 4-port switch. Designed for high-density office networks.

UBNT-U6-LR
Ceiling-mounted WiFi 6 AP with 8 spatial streams and extended signal range.

UBNT-U6-ENTERPRISE
Ceiling-mounted WiFi 6E AP with 10 spatial streams and 6 GHz support to provide seamless, multi-band coverage within high client density environments.

UBNT-UAP-AC-M
Compact, indoor/outdoor WiFi 5 AP with 4 spatial streams and optional external antenna support for directional coverage.

UBNT-UAP-AC-PRO
Ceiling-mounted WiFi 5 AP with 6 spatial streams designed for large offices.

UBNT-UAP-AC-HD
Ceiling-mounted WiFi 5 AP with 8 spatial streams designed to support high-density networks and critical system applications.

UBNT-UAP-AC-SHD
Ceiling-mounted WiFi 5 AP with 8 spatial streams designed to support high client density environments.

UBNT-UBB
A 60 GHz wireless point-to-point bridge with 10G SFP+ uplink for maximum performance.

UBNT-UBB-XG
A 60 GHz wireless point-to-point bridge.

***All Ubiquiti products are available to order through LTS**

53

UniFi® Cloud Gateways

UBNT-UDM-PRO-MAX
10G Cloud Gateway with 200+ UniFi device / 2,000+ client support, 5 Gbps IPS routing, and redundant NVR storage.

UBNT-UDM-PRO
10 Gbps Cloud Gateway with 100+ UniFi device / 1,000+ client support and 3.5 Gbps IPS routing.

UBNT-UDM-SE
10 Gbps Cloud Gateway with 100+ UniFi device / 1,000+ client support, 3.5 Gbps IPS routing, and built-in PoE switching.

UBNT-UX
Impressively compact UniFi Cloud Gateway and WiFi 6 access point that runs UniFi Network. Powers an entire network or simply meshes as an access point.

UBNT-UCG-MAX
Compact 2.5G Cloud Gateway with 30+ UniFi device / 300+ client support, 2.3 Gbps IPS routing, and selectable NVR storage.

UBNT-UCG-ULTRA
Compact Cloud Gateway with 30+ UniFi device / 300+ client support, 1 Gbps IPS routing, and multi-WAN load balancing.

UniFi® CloudKeys Gateways

UBNT-UXG-LITE
A compact and powerful UniFi gateway with a full suite of advanced routing and security features.

UBNT-UXG-PRO
Multi-WAN independent gateway designed to protect large-scale networks with a full suite of advanced routing and security features.

UBNT-UCK-G2-SSD NEW
Compact UniFi Console that connects directly to the Site Manager at https://unifi.ui.com/ for powerful, multi-application site management. Pre-installed 1TB SDD

UniFi® PoE Switching

• UBNT-USW-ENTERPRISE-48-POE (720W)
• UBNT-USW-ENTERPRISE-24-POE (400W)
• UBNT-USW-ENTERPRISE-8-POE (120W)
A 48 / 24 / 8-port, Layer 3 switch with 2.5 GbE PoE+ output.

• UBNT-USW-PRO-MAX-48-POE (720W)
• UBNT-USW-PRO-MAX-24-POE (400W)
• UBNT-USW-PRO-MAX-16-POE (180W)
A 48 / 24 / 16-port, Layer 3 Etherlighting™ switch with 2.5 GbE and PoE++ output.

• UBNT-USW-PRO-48-POE (600W)
• UBNT-USW-PRO-24-POE (400W)
• UBNT-USW-PRO-8-POE (120W)
A 48 / 24 / 8-port, Layer 3 switch capable of high-power PoE++ output.
• UBNT-USW-48-POE (195W)
• UBNT-USW-24-POE (95W)
• UBNT-USW-16-POE (42W)
A 48 / 24 / 16-port, Layer 2 PoE switch with a silent, fanless cooling system.

• UBNT-USW-LITE-16-POE (45W)
• UBNT-USW-LITE-8-POE (52W)
A wall-mountable, 16 / 8-port, Layer 2 PoE switch with a fanless cooling system.

UBNT-USW-FLEX (46W)
Flexible 5-port, Layer 2 PoE switch for indoor and outdoor use, that can be powered with PoE++.

UBNT-USW-FLEX-MINI
A compact, 5-port, Layer 2 switch that can be powered with PoE or a 5V USB-C adapter.

UBNT-USW-FLEX-UTILITY
The Switch Flex Utility is an outdoor weatherproof enclosure designed for use with the Switch Flex.

Managed PoE Switches

POE-SWC402G NEW
4-Port Cloud Managed Gigabit PoE Switch
• 60 W, IEEE 802.3af/at
• 4 x Gigabit PoE RJ45 ports
• Up to 1,000 ft
• 2 x Gigabit RJ45 port
• Supports LTS Platinum Partner (LPP)

POE-SWC802G NEW
8-Port Cloud Managed Gigabit PoE Switch
• 110 W, IEEE 802.3af/at
• 8 x Gigabit PoE RJ45 ports
• Up to 1,000 ft
• 2 x Gigabit RJ45 port
• Supports LTS Platinum Partner (LPP)

POE-SWC1601G NEW
16-Port Cloud Managed Gigabit PoE Switch
• 230 W, IEEE 802.3af/at
• 16 x Gigabit PoE RJ45 ports
• Up to 1,000 ft
• 1 x Gigabit RJ45 port
• 1 x Gigabit fiber optical port
• Supports LTS Platinum Partner (LPP)

POE-SWC2401G NEW
24-Port Cloud Managed Gigabit PoE Switch
• 370 W, IEEE 802.3af/at
• 24 x Gigabit PoE RJ45 ports
• Up to 1,000 ft
• 1 x Gigabit RJ45 port
• 1 x Gigabit fiber optical port
• Supports LTS Platinum Partner (LPP)

Wireless Bridges

LTWB-5AC-12
12V DC Wireless Bridge
(Up to 3 Miles)

LTWB-5AC-360
360° PoE Wireless Bridge receiver with antenna
(Up to 1 mile)

*All Ubiquiti products are available to order through LTS

Power Adapters

PS120V0800	800mA, 12V DC

	LTPS0806-A	ETL	• 8 Way Aluminum Alloy Case Power Bar • 6 ft Cord, ETL Listed
	LTPS1215-A	ETL	• 12 Way Aluminum Alloy Case Power Bar • 15 ft Cord, ETL Listed

WD Purple and Purple Pro HDDs

Western Digital.

WD Purple™

Capacity	1TB, 2TB, 3TB, 4TB, 6TB, 8TB
Interface	SATA 6 Gb/s
Form Factor	3.5 inch
MTBF	Up to 1 million hours
Warranty	3 years

• Engineered for mainstream surveillance security systems
• AllFrame™ technology improves ATA streaming to help reduce frame loss and improve overall video playback
• Supports up to 64 single-stream cameras per drive
• Supports Western Digital Device Analytics™ (WDDA)
• Workload rating up to 180TB year, 3x the rating of desktop drive

WD Purple® Pro Smart Video Hard Drive

Capacity	8TB, 10TB, 12TB, 14TB, 18TB, 22TB, 24TB, 26TB
Interface	SATA 6 Gb/s
Form Factor	3.5 inch
MTBF	Up to 2.5 million hours
Warranty	5 years

• Higher Capacity Drives for More Demanding Smart Video Solutions
• Enterprise Class Reliability
• High Performance for Simultaneous Video Recording and Real-Time AI Analysis
• Built for Advanced Smart Video Workloads
• Innovative AllFrame™ Technology
• Proactive Drive Health Insights with WDDA™
