RISKS & TRENDS OF CASINO RESORTS

CHALLENGES

Casinos face a myriad of security challenges, each posing significant risks to their operations.

- **Theft and Financial Fraud**: With large amounts of money rapidly changing hands, casinos are prime targets for theft and fraud.
- **Regulations Adherence**: Casinos must comply with stringent industry regulations to maintain operational integrity and data protection. This requires constant monitoring of all tables, machines, cash vaults, and other areas.
- **Space and Volume Challenges**: Large, open-door environments with numerous entry and exit points make comprehensive monitoring difficult. The high volume of people, especially on busy nights, adds complexity to security management.

TRENDS

The Security & Surveillance Application segment within the Casino Management Systems (CMS) market in the U.S. is projected to reach a 12.3% Compound Annual Growth Rate (CAGR) and attain a value of US $12.4 Billion by 2030.

- **AI-Based Surveillance:** AI-based security systems are in high demand, prompting casinos to adopt advanced, proactive technologies to ensure the safety of guests, staff, and assets. For instance, AI-based gun-detecting video content analytics are effectively enhancing emergency response capabilities.
- **Multi-layered Systems:** Casinos are implementing comprehensive solutions that integrate cutting-edge video surveillance, alarms, and displays, prioritizing the protection of profits, property, and patrons against various threats.

With a commitment to delivering a safer, more efficient, and more profitable casino experience, the industry is poised for continued growth and innovation in security measures.

HOLISTIC SOLUTIONS FOR CASINO RESORTS

● ● ●

Nowadays, casinos require multi-layered security systems to cover every area of operation, protecting guests and staff while securing profits. LTS offers cost-effective ways to prevent property loss and mitigate risks at casino facilities.

LXN9432D-P24
32-Channel AI NVR with PoE transmission up to 2,620 ft

LXIP75122
Fisheye cameras to discreetly monitor count room, banking areas, and cage

Security Room

LXIP7553W4-SZ12
Multi-Directional 360° Dome with People Counting for operation analysis and optimization

LXIP3C8PWI-SDL
Panoramic Camera to monitor hallways and public areas

Count Rooms

Lobbies

Gaming Areas

Parking Lots

LXPTZIP514W-X32IR
Auto Tracking PTZ to follow person of interests discreetly

LXIP7C122W-28MDA
5K Color 24/7 Dome with People Counting and Face Detection for video analytics

LXIP9943LPR-50R
Vari-focal LPR cameras for vehicle management

LXIP3C122W-28MDA
5K Turret with X-Search to locate targets quickly

PRO-X FOR PROS

LTS introduces the new, fully NDAA-compliant Pro-X product line, featuring cutting-edge technologies such as X-Search, X-Deterrence, X-Tracking, and more AI functions. Pro-X is ideal for casino resorts,office buildings, schools, and much more.

Multi-Directional Dome *(New)*
- Four-directional panoramic dome for 360° surveillance without blind spots
- 4-channel Face Detection that recognizes 6 attributes and 8 expressions
- Support for VCA events like Perimeter Protection and People Counting

5K X-Search Cameras *(New)*
- Impressive 12 MP resolution with super-adapt technology
- X-Search to quickly locate humans & vehicles by attributes in one click
- E-Tracking to follow multiple targets simultaneously

UPGRADED CASINO SURVEILLANCE

CASE STUDY

Background: A renowned casino located in Pennsylvania required a modernized video surveillance system capable of monitoring multiple venues within its premises.

Solution: In response to the casino's requirements, LTS proposed a tailored solution featuring advanced surveillance technologies. This included X-Search cameras for rapid target identification, E-Tracking PTZ cameras for discreet monitoring in gaming areas, LPR cameras for vehicle management and data retrieval, 360° multi-directional cameras for wide-area coverage, and the 32-channel AI NVR with long-range built-in PoE for centralized video management.

Result: With enhanced monitoring and comprehensive coverage, the LTS solution effectively mitigates security threats and unauthorized activities. The upgraded system ensures safety for both premises and occupants, fostering a secure environment for staff and patrons.
